**FDA APPROVED MAKRITE N95
RESPIRATOR MASK WITHOUT VALVE**

Makrite N95 Respirator Mask, white, regular size

Suitable for respiratory protection against solids, such as those from minerals, coal, iron ore, flour and certain other substances

Durable with a soft and comfortable inner surface

Adjustable aluminum nose piece

Ultrasonic welded head-straps for secure seal and to provide proper fit

Makrite N95 Respirator Masks have a 510(K) number for the medical market and can be used TB situations as recommended by OSHA

NIOSH Approval Number: TC-84A-4563

FDA Approval Number: 84A-5411

All Sales Are Final.

The Makrite N95 Respirator Mask NIOSH approved respirators is the "standard" for all the industries in which these products are used. This is the basic N95 product developed to compete with similar appearing disposable respirators. By far, this cone style of N95 mask is the most widely used mask in all work environments. These models have been designed to easily meet NIOSH's stringent approval requirements for breathing resistance and filtration efficiency.

NON-CONTACT INFRARED FOREHEAD THERMOMETER

This Non-Contact Infrared Forehead Thermometer is designed to be a screening device to measure body, forehead or object temperature without contact. This infrared digital non-contact thermometer measures body temperatures from 93.2° to 109.4° F (34-43° C) and object temperatures from 32° to 212° F (0-100° C). This thermometer is ideal for use when measuring body temperature of an individual's forehead from up to two (2) inches away (up to 5 cm). This digital thermometer is good for initial screening in areas intended for large gatherings including office buildings, factories, schools and universities. The non-contact benefit could aid in significantly reducing the spread of infectious diseases. This device is intended for screening purposes only, not to replace clinical thermometers or a professional diagnosis.

Non touch measurement
10 memory
Back-light Optional
Result Indicator
Fever alarm
Low battery indicator
Auto shut-off
Temperature results display in 1 second
Celsius and Fahrenheit Dual Scale, switchable
LCD Screen Size: 24mm x 22mm
Batteries Required: 2 x AAA
All Sales Are Final

Laboratory Accuracy:

*Forehead mode: $\pm 0.4^{\circ}\text{F}$ (0.2°C)
during 95.9°F-107.6°F (35.5°C-42.0°C) at 59.0°F-95.0°F (15°C-35°C) operating temperature range $\pm 0.5^{\circ}\text{F}$ (0.3°C) for other measuring and operating temperature range
*Object mode: $\pm 4\%$ or $\pm 4^{\circ}\text{F}$ (2°C) whichever is greater

#DM-COV012006

\$78*/EACH**PROTEKT PULSE OXIMETER**

Accurate reading of SpO₂ values is among the most important factors for successful management of respiratory care. For patients with a breathing disorder, monitoring blood-oxygen levels and heart rate can save their lives. Fingertip pulse oximeters offer a non-invasive, safe way to do this. In addition, this model is also well suited for exercise, sport purposes and high-altitude activities.

Recommended by the CDC for identifying COVID-19 symptoms!

Ideal for use in multiple applications; hospital, nursing home, community medical treatment, home care, sports center, etc.

Portable non-invasive spot check oxygen saturation and heart rate

Displays digital SpO₂ and pulse rate while using bar graph technology to monitor heart rate

Automatic power off

Two AAA batteries included

1 Year limited warranty
